

Call For Submissions

The Workplace Health, Safety & Innovation Award recognizes a workplace practice, policy, program, process, or tool which demonstrates improvements in health and safety. This includes anything which could be considered proactive, unique, creative or forward thinking.

Objectives

The objective of the Workplace Health, Safety and Innovation Award is to:

- Acknowledge individuals, organizations and/or companies for their efforts in the prevention of workplace / site incidents, injuries and illnesses.
- Encourage individuals, organizations, and companies to implement programs, policies, safety protocols or onsite practices which improve the health and safety of workers and the surrounding community.

Recognition

The winning recipient of the Workplace Health, Safety and Innovation Award will receive \$1000.00 in Esso Fuel Cards sponsored by:

Award Submission Deadline

Applications must be made in writing to the Concrete BC safety committee and include:

A completed application form.
Information must be provided for all criteria listed on the application form.

Applications must be submitted to:
safety@concretebc.ca
prior to the close of business on
August 31, 2024

Applications received after this date will only be considered for next year's awards.

Award Criteria

This award recognizes all types of health and safety initiatives or innovations. The purpose of this award is to encourage the sharing of forward-thinking ideas which have been implemented to create a safer, healthier work environment, and practices which go beyond what is considered routine in the industry.

Required Application Information

- 1) **Description**
- 2) **Effectiveness:** e.g. how it reduces risk with regards to safety or improved by innovation
- 3) **Significance:** e.g. how the initiative has positively impacted the overall health and safety of your workplace and organization and possible future benefits
- 4) **Relevance:** e.g. how will your initiative improve the industry overall
- 5) **Operating Areas or Project** to which safety or innovation applies

Here are some examples:

- Identifying ways where significant hazards have been eliminated or controlled through engineering or work isolation
- The development and implementation of unique safety procedures / practices or equipment which has been proven to reduce workplace incidents
- Materials, methods or tools which have increased worker safety knowledge of industry hazards and increased protective measures
- Programs or techniques which help prevent workplace incidents, injuries and illness
- An innovative way to improve public perception of the health and safety of the concrete industry

Just a reminder, anything developed, manufactured or 'new to BC' must conform to all regulatory standards.

Eligibility:

Open to all Concrete BC members in good standing—
ACTIVE, ASSOCIATE & AFFILIATE
